Employment History

2010 - Present Professor, Department of Health Services Policy and Management
2003 – Present Director, South Carolina Rural Health Research Center
2007 – 2010 Interim Chair, Department of Health Services Policy and Management
2005 – 2013 Graduate Director, Department of Health Services Policy and Management
2000 - 2002 Deputy Director, South Carolina Rural Health Research Center
2000 – 2010 Associate Professor, Department of Health Services Policy and Management,

Currently direct the South Carolina Rural Health Research Center, with principal funding from the Office of Rural Health Policy, HRSA. The Center represents a multi-year effort examining health disparities among poor and minority rural populations, with core funding at approximately \$9.3 million over sixteen years and leveraged funding adding another \$6.6 million, for a total of \$16.9 million. Supervise multiple doctoral dissertations and MPH/MHA residencies. Courses taught: "Information Systems in Healthcare Administration," "Research Methods," "Approaches and Concepts for Healthcare Administration," and "Advanced Topics in Health Policy and Management."

1997 - 2000: Clinical Associate Professor, Department of Family and Preventive Medicine,
University of South Carolina School of Medicine
1993 - 1996: Clinical Assistant Professor

Developed and implemented strategies to enhance research activities and funding support for the Department of Family and Preventive Medicine, as well as pursuing personal research interest in rural health. Develop grant activities that totaled \$2 million across the period.

1991 - 2000: Adjunct Assistant Professor, University of South Carolina, School of Public Health, Department of Health Administration.

Courses taught: "Approaches and Concepts for Health Administration," "Information Systems in Health Administration."

1990 - 1993: Consultant in health policy issues.

On a contract basis, prepared project evaluations, health policy analyses and grant applications. Projects included evaluation of "Gateways," an alcohol treatment improvement project in three majority-African American rural counties, Orangeburg, Bamberg and Calhoun; evaluation of a pregnancy outreach project in rural Barnwell County; and an assessment of the need for rent and utilities assistance among low-income residents of Richland County.

1987-1990: Doctoral Candidate, School of Public Health, University of South Carolina.

Dissertation: The Economic Impact of Rural Hospital Closure.

1984 – 1987: Senior Associate, SRA Technologies, Alexandria, Virginia.

Served as Project Director and Principal Investigator for three alcohol safety contracts with the National Highway Traffic Safety Administration: Evaluation of the effects of citizens group court monitoring programs on sanctions for driving while intoxicated; development of materials for educating judges and district attorneys concerning alcohol and driving impairment; and development of a computer based case management information system for tracking driving while intoxicated offenders.

1973 – 1983: Senior Associate, Kappa Systems, Inc., Alexandria, Virginia

Over a ten year period, acquired funding for, directed, and contributed to numerous research, evaluation and management science efforts. Designed and analyzed surveys in the area of health practices and provider preference, directed health management information systems, carried out research and evaluation tasks for the National High Blood Pressure Education Program, and directed small computer applications projects. Major projects directed include:

Development of an evaluation plan for Multipurpose Arthritis Centers (client: National Institutes of Health)

Epidemiologic study of the health status and health services utilization of Job Corps participants (Department of Labor)

Development of the Professional Standards Review Organization Management Information System (Health Care Financing Administration)

1972 – 1973: Research Assistant, Federal Railroad Administration, Washington, D.C.

Provided library research, editorial assistance and French-English translation.

1969 – 1970: Management Intern, Veterans Administration Hospital, Washington, D.C.

Major accomplishment during this period was a detailed study of the Pharmacy Department, with recommendations for staffing and improvement in work flow.
